Journal Name:	<a href="#">British Journal of Medicine and Medical Research</a>
Manuscript Number:	<b>MS: 2012/BJMMR/1384</b>
Title of the Manuscript:	<b><i>Steady-State Levels of Troponin and Brain Natriuretic Peptide for Prediction of Long-Term Outcome after Acute Decompensated Heart Failure with or without Chronic Kidney Disease</i></b>
Manuscript received on (Date)	
Review comment submitted (Date)	

**SDI Review Form 1.5**

**PART B: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part and write here 'Corrected'/ if not agreed, give suitable justifications)</i>
<b>General comment:</b>	<b>The paper analysed is really interesting; although the topic is already very debated in literature, this article adds some points of novelty.</b>	
<b>Specific comments:</b>		
Title and abstract		
Introduction		
Review of literature (Heading may differ in the case of review paper)		
Materials & methods (Heading may differ in the case of review paper)	Probably the Follow Up period of 2 years is too short; since it is a retrospective study it could be considered to extend it.	
Results & discussion (Heading may differ in the case of review paper)	The main original aspect of the manuscript is the demonstration of the possible stratification by BNP/TnT levels also in renal impairment cases.	
Conclusion
