Subject: Re: Request for final decision for manuscript number 2013_BJMMR_7322

I have read the manuscript 2013_BJMMR_7322 entitled 'Early intervention in audiology: Exploring the current status from a developing country context' as well as Reviewers' comments. The Reviewers found merit in the study and manuscript publishable with minor revision. Authors addressed all referees' comments, the questions are satisfactorily answered and the manuscript was carefully revised accordingly. Therefore, I have come to a decision to **accept** the manuscript for publication in British Journal of Medicine and Medical Research.
