SDI Review Form 1.6

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
<b>Compulsory</b> REVISION comments	<p><b>This paper does not follow the author guidelines. References are not in the correct form, neither in notation or in the bibliography list, and, in general, are not cited in the text, while a few appear in the text that are not in the bibliography. The tables also need revision, as they are incomplete, badly formatted and hard to understand.</b></p> <p><b>The make-up of the councils issuing the fatwas should also be mentioned (medical experts, parents, religious leaders, etc.).</b></p>	
<b>Minor</b> REVISION comments	We would suggest reviewing the current literature to flesh out the paper. Existing literature concerning the Islamic point of view should be mentioned in the text.	
<b>Optional/General</b> comments	This is an interesting topic that merits attention.
