

SDI FINAL EVALUATION FORM 1.1

PART 1:

Journal Name:	British Journal of Medicine and Medical Research
Manuscript Number:	2014_BJMMR_13344
Title of the Manuscript:	Effectiveness of Lumbar Puncture in Elderly Patients Presented with Acute Confusional State
Type of the Article	Short Research Article

PART 2:

FINAL EVALUATOR'S comments on revised paper (if any)	Authors' response to final evaluator's comments
I still believe the research question and hypothesis is not sound and scientific. The conduct of the study is quite vague. It is interesting topic but needs to be done more scientific and selecting a subset of population as lumber puncture as routine is questionable.
