SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment <i>(if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)</i>
Compulsory REVISION comments	I just finished reading the paper you sent to me. I can tell you since now that the English is overall so poor and phrasing so wrong, that it is difficult even to read the whole paper. There are also a number of methodological errors and the presented data are quite old (4-5 years), not to mention that the results are very repetitive.	
Minor REVISION comments		
Optional/General comments
