**SDI Review Form 1.6**

**PART 1: Review Comments**

	<b>Reviewer's comment</b>	<b>Author's comment</b> (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
<b>Compulsory</b> REVISION comments	<b>No</b>	
<b>Minor</b> REVISION comments	Line 334: ...in urban werewilling...: ... in urban were willing ...	
<b>Optional/General</b> comments	Interesting study evaluating the satisfaction of users of maternal health services. The study took a holistic approach, which considered the inputs, processes and outputs of the system of care, comparing them between urban and rural areas, which confirms the need to provide personnel and equipment to increase the use of these services by the pregnant. The methods of data collection and processing were adequate.
