

SDI Review Form 1.6

Journal Name:	International Research Journal of Pure and Applied Chemistry
Manuscript Number:	2015_IRJPAC_18332
Title of the Manuscript:	SPECTROPHOTOMETRIC STUDY OF OXIDATION KINETICS AND MECHANISM OF LOSARTAN POTASSIUM USING N-CHLOROSUCCINIMIDE
Type of the Article	Original Research Article

General guideline for Peer Review process:

This journal's peer review policy states that **NO** manuscript should be rejected only on the basis of '**lack of Novelty**', provided the manuscript is scientifically robust and technically sound.

To know the complete guideline for Peer Review process, reviewers are requested to visit this link:

SDI Review Form 1.6

PART 1: Review Comments

	Reviewer's comment	Author's comment (if agreed with reviewer, correct the manuscript and highlight that part in the manuscript. It is mandatory that authors should write his/her feedback here)
Compulsory REVISION comments		
Minor REVISION comments	<p>The present manuscript considers the Spectrophotometric oxidation and kinetic study of Losartan potassium using N-chlorosuccinimide .The material analysis and various effects on the kinetic rate is discussed with suitable graphs. The Authors should clarify and include the following comments in the manuscript.</p> <ol style="list-style-type: none"> 1. In line 272, The second mechanical step needs clarification regasrding the carbon mass balance. 2. Clarification needed for the rate law expression discussed in line 245 to 255. 3. Give recent References regarding the development of the overall rate law. 4. The clarity of the figures should be improved. Majority of the figures are not readable. <p>The authors must clarify and include the above comments in the manuscript.</p>	
Optional/General comments
